# INTRODUCTION

## **Congratulations!**

We sincerely thank you for choosing a Victa® Ride-On mower.

We believe that your new Victa will bring you increased mowing enjoyment and satisfaction.

We recommend that you take the time to read the Operator's Manual and familiarise yourself with the necessary information to maintain your Victa Ride-On mower.

This booklet will be a record of information about your Victa, which is not only for your own reference, but also your servicing dealer and any subsequent owners.

## **About Victa® Ride-On Dealers**

Your local Victa® Ride-On Dealer employs trained and qualified Master Service Technicians. Using only genuine parts, your Victa Dealer can ensure the highest quality service, every time.

Victa Ride-On Dealers have direct access to Victa technical updates, manuals and immediate up-to-date product information, in order to provide the highest servicing standards.

Our Dealer Network has priority call access to our factory trained service call centre, on hand to help with any diagnostic issues or service information.

Mow with confidence knowing that your mower has been serviced with genuine parts.

# MAINTENANCE AND SERVICE

## MAINTENANCE AND SERVICE

Your Victa Ride-On mower has been designed and manufactured to provide years of reliable use, however it is necessary to carry out all scheduled maintenance to ensure your mower is operating properly.

Your Victa Ride-On Dealer will carry out maintenance service as requested by the owner and the owner will be responsible for any costs incurred. It is the owner's responsibility to arrange transport of the mower to and from the Victa Ride-On Dealer.

Warranty service is available through Victa Ride-On Dealers nationally. Our Limited Warranty covers only defects in materials or workmanship. It does not cover damage caused by improper use or abuse, improper maintenance or repair, or normal wear and tear. Refer to the Operator's Manual or [victa.com.au](http://victa.com.au) for complete warranty details.

## WHAT OWNERS AND OPERATORS MUST DO

Properly use, maintain and care for your Victa mower as outlined in your Operator's Manual.

Retain maintenance service and inspection records for use in the event of a warranty issue.

## CHECKS FOR OPERATORS

It is important to regularly check the following items in between your scheduled maintenance.

- |                        |   |
|------------------------|---|
| <b>Engine Oil</b>      | Check the engine oil level every time you fill the fuel tank. All engines consume oil as part of their normal operation.  |
| <b>Tyres</b>           | Tyre pressure should be checked periodically and maintained as per the levels shown in the Operator's Manual.   |
| <b>Blade Stop Time</b> | Mower blades and mower drive belt should come to a complete stop within a specified time after the electric PTO switch is turned off. Please refer to your Operator's Manual for details. |

## WHEN TO HAVE YOUR VICTA RIDE-ON SERVICED

Your Victa Ride-On needs to be serviced at the nominated service hours or annually, whichever occurs first. Your Victa Ride-On may require more frequent servicing under severe mowing conditions.

Severe conditions include:

- Extremely hot weather
- Excessively dusty conditions

Your Victa Ride-On Dealer is best qualified to advise how often this should happen.

The intervals shown are minimum requirements for safe mowing operation in standard conditions. In servicing the mower, the use of Genuine approved parts and consumables will ensure that the original engine & chassis specification is maintained and the mower continues to comply with all certification requirements, as well as meeting Government regulations relating to safety and environmental controls.

## DESIGN CHANGES

Victa reserves the right to make any design change or modification as deemed necessary without notification and without incurring any obligation to make the same or similar changes to Victa mowers previously sold.

You can be confident that your Victa Ride-On Dealer will do everything possible to meet the maintenance and repair needs of your mower.

## MAINTENANCE

**Improper Maintenance or Repair** - The mower must be maintained according to the procedures and schedule provided in the Operator's Manual. Damage caused by lack of maintenance or use of non-original parts is not covered by warranty.
